Chamberlain Joint Bill Hits Basis of Protest on Free Tolls to American Ships.

MAY PUSH SETTLEMENT.

Action Taken as New English Ambassador Comes to Deal With Disputed Question.

WASHINGTON, April 21 .-- A joint resolution to abrogate the Hay-Pauscefote and Clayton - Bulwer treaties, on which Great Britain is basing her protests against the Panama Canal set, was introduced today by Senstor Chamberlain of Oregon, and referred to the Foreign Relations Committee.

Orest Britain bases her protests against free passage for American ships in the Penama Canal. Senator Chamberlain, a leader in the Senate of the free passage exponents, declared to-day that he considered abrogation of the trenty the easiest and quickest way to get to the bottom of the affair.

Senator Chamberlain explained that rhile the Clayton-Bulwer treaty had been superseded by the existing Hay-Paunosfote treaty, he included it in his resolution for abrogation, upon a theory that were the Hay-Pauncefote treaty to se abrogated alone Great Britain might chase her claims upon the old treaty th the contention that the abrogation f its successor still left it in force.
